ITALY WILL NOT YIELD BREACH OVER FIUME STILL HOLDS UP ALL PEACE PLANS

(By Associated Press)
Paris, April 23.—The Italian delegation to the peace conference reiterated today its determination to stand firm on the question of Fiume, indicating that unless the council changed its position, the delegation would not return to the conference. An early settlement of the difficulty is thought improbable. President Wilson is understood to be equally as firm as the Italian representatives.

Premiers Clemenceau, Lloyd George and President Wilson resumed this morning the consideration of questions concerning China and Japan. The facts of the deadlock, according to the Petit Parisien, are as follows: President Wilson proposed that Fiume, which is not mentioned in the Treaty of London, should be a free city and that the London treaty should be subjected to a revision. Italy refused to accept this proposal, where-

upon President Wilson withdrew. The Italian representatives then were more conciliatory. A compromise seemed possible. President Wilson has now receded from his proposal and is inclined to give Fiume absolutely to the Jugo-Slavs. Premier Clemenceau and Lloyd George are understood to be ready to adhere purely and simply to the Treaty of London through seeking conciliation.

Premier Orlando threatens to return to Italy today unless there is a satisfactory adjustment of the Fiume and Dalmatian questions. Premier Lloyd George of Great Britain, is trying to persuade the Italian Premier to remain in Paris longer while he continues his efforts to reconcile the opposing viewpoints. Premier Lloyd George tried unsuccessfully last night to reconcile the viewpoint of President Wilson and Premier Orlando. It became known today.

THE WEATHER

Washington, April 23.—Fair tonight. Slightly warmer in Vermont. Thursday fair. Gentle shifting winds.

(By Associated Press)
Boston, April 23.—The battleship New Jersey due here today with the last big detachment of the 26th Division reported by wireless this morning that there were 7 cases of diphtheria on board. Army officials immediately announced that the passes to Commonwealth Pier where the transport will dock, except those for welfare organizations, had been cancelled. The New Jersey brings 1387 officers and men, of whom nearly 900 are members of the Yankee division. The latter include the Horse Battalion headquarters, medical and ordnance detachments and companies C, D, E, F and G of the 101st ammunition train. The remainder of the troops are members of casual companies. Nearly all of the Yankee division troops on

the battleship are natives of Vermont, former members of the old First Vermont infantry. The cancellation of pier passes altered reception plans somewhat but did not deter the official delegation from going down the harbor.

Two of the fleet of welcoming boats which started down the harbor at 12 o'clock were crowded with Vermont state and city officials and relatives and friends of the boys. Governor Clement, headed the delegation. With him were Adjutant General Herbert P. Johnson, Harvey B. Goodell, Miss Julia Holland, James D. Brown, Arthur G. Eaton and J. P. Adams, all of Montpelier. On another boat was Mayor Jackson of Burlington and delegates from that city, including Northfield, Brattleboro and Springfield.

20,500 MEN IN PARADE ON FRIDAY

Boston, April 23.—It is estimated that 20,500 men of the Twenty-Sixth Division will participate in the parade on Friday. Up to this point, about 1400 discharged men had signified their intention of marching and as the notifications are rapidly coming in, it is believed that the number of former members who will be in the parade will be about 2000. In addition there are likely to be fully 600 wounded men. The division reached this country with a strength of more than 28,000, but men whose homes are outside New England were not required to take part in the parade unless they so desire. As a result, the number of active members of the division in line will be about 18,000. The total strength of the parade will consequently be about 20,500.

Arrangements have been made for the participation of officers now in active service, who are former members of the Twenty-Sixth. These officers will march with the discharged soldiers following the units to which they formerly belonged.

Assistant Secretary of War Benedict

Crowell, who will represent Secretary Baker at the parade, will arrive in Boston Friday morning. He will be met at the Back Bay station by a member of Governor Coolidge's staff and by Captain T. D. Chandler, aide to General Edwards. Mr. Crowell will go to General Edwards' house on Commonwealth avenue, where he will have breakfast. During the parade he will be the guest of Governor Coolidge, and will review the parade from the Governor's stand. During the day he will spend some time with Dr. Harvey Cushing, who is a relative.

MORE WEAVERS BACK AT MAINE MILLS.

Biddeford, Me., April 23.—The Pepperell and York mills reopened Tuesday, for the second week after the strike, with more looms running than at any time since the labor trouble. Many weavers who refused to return last week went back Tuesday. It is predicted by the mill managers that by the end of this week all will have returned. There was no trouble at the mill gates either here or at Saco Tuesday. The union pickets were not on duty.

The regular and special police were on duty, but there was nothing for them to do.

Rev. P. Kilhiga of St. Patrick's parish, Brockton, has missed mass on only one Sunday in 35 years.

CHILD LABOR IS HIT HARD BLOW

Washington, April 23.—Federal supervision of child labor, abolished when the supreme court last year declared unconstitutional the existing child labor law, was re-established today under regulations issued by the Internal Revenue bureau putting into effect the new revenue act's tax on child labor products.

The regulations interpret various provisions of the law, which levies a tax of 10 percent on net profits of any concern employing children under the specified ages. After April 25, when the new act becomes fully effective, the tax will be assessed on the profits of any mine or quarry in which children under 16 years of age are employed or any mill, quarry, workshop or factory in which children under 14 years are employed at any time of the year. Boys and girls earning more than \$100 a year will be required to register with the Department of Agriculture as exempted.

DOVER

Dover, April 23.—The teachers and pupils of the Hopkirk grammar school, headed by the school drum corps, marched in a body to the residence of Col. Daniel Light Monday afternoon, where they held exercises over the flag which was recently presented to the Hopkirk school by the state department of the Woman's Relief Corps, in memory of the late Sophia Dodge Light, past department president.

The Dover police commission held a meeting at the marshal's office Monday evening and accepted the resignation of Day Walcottman Joseph, Constable, and appointed three special policemen. Much regret was expressed by the commissioners at the resignation of Officer Walcottman, who resigns to accept a more lucrative position with the American Woolen company at Sawyer's mills.

An impressive wedding ceremony was solemnized at St. Mary's church at 8 o'clock Tuesday morning when Miss Jessie G. Plummer, one of Dover's most popular young ladies, was united in marriage to William St. Flynn of Superintendent of the Electrical department of the Atlantic ship corporation at Portsmouth, who is also favorably known in Dover. The wedding ceremony was performed by Rev. John J. Bentley, P. R. of St. Mary's church in the presence of a large gathering of relatives and friends of the contracting parties, including guests from Boston, South Lawrence, North Andover, Mass., New London, Conn., South Berwick, Me. and Dover. Special music was rendered by Miss Annie Kings. The couple were attended by Miss Victory Barron of South Lawrence, Mass., as bridesmaid and James O'Brien as best man.

Following the ceremony, at the church, the party proceeded to the home of the bride at 7 Hancock street where a wedding breakfast was served by caterer McElroy. During the serving of the breakfast an orchestra rendered several choice selections.

TRY TO FIX BLAME IN TANK DISASTER

Boston, April 23.—The question of criminal liability in connection with the collapse of the molasses tank on Commercial street on Jan. 14 was argued before Chief Justice Bolster in the Municipal Court Monday.

Representing the United States Industrial Alcohol Company, owners of the tank, were Charles P. Choate, Henry V. Cunningham, James H. Morgan and Harry E. H. Dahan. Edward T. McGivern appeared for the city of Boston.

The only question taken up was whether the tank complied with the building laws of the city. Two expert witnesses appeared, Carlton G. Latta, a metallurgist, who submitted data on the structural fitness of the steel, and Clarence H. Blackall, the Boston architect, who interpreted the terms of the building statute.

Judge Bolster took the matter under advisement.

RIVER BOATERS ON DAM'S BRINK

Rochester, April 23.—The boating season on the Cocheco River has commenced, and Monday evening there came very near being a tragedy on this stream at the dam between the North Main and River street bridges.

Charles Percy, Ernest Martineau and another young man were in a row boat, which approached the edge of the dam, over which the water rushes with great velocity in rocks many feet below. The three occupants, seeing the danger in which they were placed, repaired to the stern of the boat, their weight anchoring the craft on a rock. The boat was in imminent danger of being swept over the falls.

The predicament of the young men was seen from the shore, and very soon crowds of people swarmed the river bank and the two bridges, but powerless to render aid. Many spectators expected every minute to see the men carried over the dam to their death. Meanwhile Mr. and Mrs. Edward L. Dunlap happened to be passing over the North Main street bridge, and when Mr. Dunlap saw the dangerous position of the boat he determined, if possible to save the young men. For many years Mr. Dunlap was a member of Cocheco Hose company, and he has a record for daring exploits. He procured a boat and a quantity of rope and with an assistant pulled to the scene of the danger. One end of a rope was attached to his boat and the other left in the hands of men on the River street shore, as the current was too strong to trust to oars.

When within a short distance of the anchored craft, Mr. Dunlap threw a line, which was made fast to the boat by its occupants, and the men on shore pulled both boats safely to land. Many years ago Mr. Dunlap saved a boy from drowning in this river as he was strolling for the third time.

Why You Should Buy Coal Now

The price of coal is 75 per cent determined by wages. The wage agreement at the mines continues until April 1, 1920. The Fuel Administration reports that 35 per cent of the mines cannot make any money at the present mine prices. In view of this, how can coal be cheaper this year?

ITALY MAY WEAKEN ON CLAIM

(By Associated Press)
Paris, April 22—There are indications of weakening on the part of the Italian delegation and a disposition to withdraw their claims for the highlands of the Dalmatian coast, but to still claim the sea coast and the city of Fiume. President Wilson is still opposed to granting Italy's demand and shutting off the Jugo-Slavs from the sea coast.

WIND STILL HOLDS UP OCEAN FLIGHT

(By Associated Press)
St. John's, N. F., April 22—Conflicting winds still prevail off the coast and weather men claim that they will hold for forty-eight hours. It again held up Harry Hawker and Captain Raynham in their flight. The latter had his machine brought out for a trial when the fog lifted but it set in again and the trip was abandoned.

BIG DEMAND FOR HONOR FLAGS

(By Associated Press)
Boston, April 22—Claims for honor flags for cities and towns who have exceeded their quota of the Victory Liberty Loan, reached the Loan headquarters today from 48 cities and towns in the Boston District. Officials are confident that there will be a great increase over the official figures of \$31,577,000 announced for the opening day. As in the first day Vermont continued to lead in the number of cities and towns who have finished up their quota having 32 to her credit already. The committee are greatly pleased with the response of the Savings banks, several of which have taken millions of bonds.

The schedule of the U. S. S. Kentucky which is making a tour of the ports along the New England coast, and which arrived in Portsmouth, N. H., on Tuesday afternoon last, Portsmouth April 23; Gloucester April 24; Salem, April 27; Boston, April 28; Plymouth, May 1; Newport, R. I. May 3; and New Haven May 6.

GIRLS! MOISTEN A CLOTH AND DRAW IT THROUGH HAIR

It becomes beautifully soft, wavy, abundant and glossy at once.

Save your hair! All dandruff goes and hair stops coming out.

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the scalp of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Danderine's Hair Cleanser at any drug store or toilet counter and try it as directed.

Save your hair! Keep it looking charming and beautiful. You will say this was the best money you ever spent.

TAX PUT TEETH IN CHILD LABOR LAW

Washington, April 22—Federal supervision of child labor, abolished when the Supreme Court last year declared unconstitutional the existing child labor law, was re-established today under regulations issued by the Internal Revenue Bureau putting into effect the new revenue act's tax on child labor products.

The regulations interpret various provisions of the law, which levies a tax of 10 per cent on net profits of any concern employing children under the specified ages. After April 25, when the new act becomes fully effective, the tax will be assessed on the profits of any mine or quarry in which children under sixteen years of age are employed or any mill, cannery, workshop or factory in which children under fourteen years are employed at any time of the year. Boys and girls earning clubs recognized by the Department of Agriculture are exempted.

A child labor tax division with a force of inspectors will be organized in the Internal Revenue Bureau to administer the new law.

To Avoid Injustice

"While it is the purpose of the Bureau of Internal Revenue strictly to enforce the law," said an announcement today, "its aim is to administer its provisions in a way to cause as little inconvenience as possible to the business world and to offer no injustice to employees. It is the intention to accept in confirmation of the age of the child, with certain restrictions as to revocation and suspension, the age certificate, working or employment certificate or permit, or other similar permit issued under the laws of the State. In some States where adequate laws do not exist, this will not be feasible. These States are probably North Carolina, South Carolina, Georgia, Mississippi and Texas. The plan is that Federal agents are to visit localities in such States where establishments employ child labor and issue the certificates in person.

The law provides that in none of the industries within the scope of the law, children within the age limits may work more than eight hours a day or

more than six days a week, or before 6 A. M. or after 7 P. M., without assignment of the tax. The first taxable period is between April 25 and Dec. 31, this year, and the first return need not be made until March 1, next year. For corporations operating on a fiscal year different from the calendar year, the return must be made on the first day of the third month following the close of the fiscal year.

NEW ENGLAND LEADS IN LOAN SUBSCRIPTION

Washington, April 22—The first report on the Victory Loan as computed from official figures was \$110,577,000 from the uncompleted reports of five out of twelve districts. The report was for business up to noon today and virtually means for the first day's business.

The New York district shows, \$66,000,000; Boston, \$31,000,000; St. Louis \$12,619,000; Cleveland \$5,277,000 and Baltimore \$3,557,000.

Boston district reports 41 cities and towns over quota which is a new record and leads all districts.

EXPLOSION FRIGHTENS MILL WORKERS

Lawrence, Mass., April 22—Two explosions at half past four in the (textual) districts shattered windows and doors and threw the inhabitants into a panic. No evidence of what caused the explosion have been found and Walter Wedger the explosive expert of the state police will come here for an investigation.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to flush Kidneys if Back Hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in uric acid, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

4454 U. S. ARMY RECRUITS ENLISTED IN RECENT WEEK

Washington, April 22—A War Department report today shows that during the week ended April 12 a total of 4454 recruits entered the Army. This brought the grand total to 11,178 volunteers available to release an equal number of soldiers from the Army of Occupation. Enlistments for three years outnumber those for one year by about three to two.

U. S. S. KENTUCKY CREW PARADE HERE TODAY

Under orders from the Navy Department, but in the service of the Victory Liberty Loan the U. S. S. Kentucky dropped anchor in port yesterday afternoon. It was late when she got in so she had to anchor in the lower harbor, but early this morning she will dock at the Plattsburgh wharf courtesy of Captain Wells who commands her she will be known open for the inspection of the people of New Hampshire.

It, early this morning people heard the thunder of guns. It is hoped they did not imagine that the one-time home of Paul Jones was being bombarded by an enemy. It was only the salute fired when Governor John H. Bartlett went on board to pay his respects to Captain Wells and to thank him in behalf of the State for the courtesy of his visit.

Any arrival of the Kentucky in Portsmouth is part of a plan devised by Rear Admiral T. J. Cowley by which the example of the Navy might be used to stimulate the interest of the entire nation in the progress of the Victory Liberty Loan which the Admiral characterizes as "The last great battle of the great war."

Admiral Cowley designated the U. S. S. Kentucky, Oregon, Maryland, Beale, Burrows, Anson, Jenkins, Paulding, Terry and Coghlin to take part in the Victory Loan Drive. The Kentucky was in Portland, Me., on April 21 where she was received with a salute and a band. She will arrive at Portsmouth at 10 A. M. today and will be met by a band and a crowd of people. The ship will be in the harbor until the 24th, when she will be towed to the Plattsburgh wharf. The ship will be in the harbor until the 24th, when she will be towed to the Plattsburgh wharf.

The people of Portsmouth will be particularly interested in the speech of Captain Wells as he will recount his terrible experiences when the "Mount Vernon" a crowded troopship on which he was Captain, was torpedoed by a German submarine. It will be an echo of the great war that should stimulate patriotic interest in the Victory Loan.

The parade will form when the crew from the Kentucky comes ashore at 10:30. It will march up Battery street to Market street, then to Pier street up to Vaughan, south to Congress street and up Congress to Middle street, thence to Sixth and Pleasant streets to the parade. There a grandstand will be erected for the speakers.

The arrangements for the parade have been made by Mr. M. M. Stone, Chairman of the Victory Liberty Loan Committee.

All this participation of the Navy in the Victory Loan is part of the great plan under which a Victory Ship has sailed from San Francisco for New York by the way of the Panama Canal. The Victory Ship's progress toward New York which will be called "The Hatcher of Victory" in accordance with the progress being made by the nation in the Victory Loan Drive. The date for ending of the drive is May 14th; if the Loan is subscribed prior to that date the Victory Ship will have to hustle to get into the harbor of Victory on time.

Throughout the country in all the large cities huge maps have been selected displaying the chart of the Victory Ship's course, also showing day by day just where she should be if the Loan is being subscribed too freely. If it lags behind the plan of Rear Admiral Cowley will be that the na-

tion cannot leave this fine naval ball at sea; she must be brought home on time.

The main object of the U. S. S. Kentucky's visit to Portsmouth is to awaken the people of New Hampshire to the vital importance of the Victory Loan and, in particular, that New Hampshire, the home of one of the largest naval yards of the nation, shall not lag behind the states which have made for herself in previous years.

MARGARET CARNEGIE MARRIED

Only Daughter of Andrew Carnegie Becomes Wife of Ensign Roswell Miller, U. S. N.

New York, April 22—In the presence of a few friends and relatives, Miss Margaret Carnegie, only daughter of Mr. and Mrs. Andrew Carnegie, and Ensign Roswell Miller, U. S. N., were married today in the Carnegie home. The officiating clergyman was Rev. William P. Merrill, D. D., pastor of the Dutch Reformed Church, and Mr. Henry George Gollin, D. D., of the Madison Avenue Presbyterian Church. The bride, who was without attendants, was given away by her father, G. B. Carnegie, a nephew of the bridegroom, was best man.

Mr. and Mrs. Miller will probably spend their honeymoon at Shadowbrook, the Carnegie summer home in Lenox. They will make their home in Princeton, N. J., where the bridegroom is to take a two year course in Princeton University.

NEWS MEN MAY PROTEST AT SECRET PEACE CONGRESS

American Correspondents in Paris Will Hold Meeting to Decide Action to Take

Paris, April 22—American newspaper correspondents in Paris will hold a meeting tomorrow to decide whether to make a formal protest against the plan to exclude correspondents of the press from the signing of the Allied and German peace delegates at Versailles and the plan forbidding them to come in contact with the German delegates in any way. Under the present plan, the press will be represented at the meetings only when the final and formal signing of the treaty occurs.

CALL FOR 10,000 FOR PACIFIC SERVICE

Washington, April 22—Recruiting of a force of 10,000 soldiers to protect American possessions in the Pacific has been ordered by the war department.

These troops will be used to increase the garrison in the Philippines, China, Hawaii and the Panama canal zone.

War department officials deny that this force is being organized because of recent clashes between Americans and Japanese in China and Korea. It will be used simply to reinforce the posts which were depleted during the war by the demands for troops in Siberia and in France.

TO LAUNCH THE TENNESSEE

Date on Which Most Modern of United States Warships Will Take the Water is April 30.

Washington, April 22—The super-dreadnought Tennessee, the first of the ten battleships authorized in the three-year building program of 1916, will be launched at the New York Navy Yard on April 30. Many of the lessons of the war were embodied in her design, special attention having been given to protection against torpedo attack. The ship is 621 feet long over all and will have a full load displacement of about 34,000 tons.

Never Mind the Liberty Buy

(From the Cincinnati Times-Star)
We have a very appropriate custom of commemorating our patriots on paper money and on stamps. Ordinarily we do it well. And it means something to the citizen that his contact with the Government should reveal to him the benign countenance of the great, congealed into steel engravings.

But the attempt of the engraver to involve artistically that great exponent of thrift, Benjamin Franklin, with War Savings stamps, has not been happy. Nay, it almost is libel. B. Franklin is apparently looking in vain for the little bird Ann that mouth and chin. Never were such on hand or seen except in grotesque make-up.

But don't let the lack of artistic quality in the representation of Benjamin Franklin prevent you from buying War Savings stamps. The engraver merely has emphasized the fact that portraiture doesn't make the War Savings stamp. That's the job of old Uncle Sam, with his billions upon billions of dollars behind him.

Bright Outlook for Summer Resorts.

E. R. Grabow of Boston, who has been connected with the United Fruit Company for several years, and who is also interested in a summer hotel property on the Massachusetts coast, predicts that the summer resort business this year will be the best in the history of New England. He bases this prediction on the general relaxation of the people following four years of war, and the further fact that Europe will not open its doors to tourist travel before 1920. This will keep the great bulk of American vacationists at home, and these will find no part of the country more attractive than New England. For the last few years there has been some falling off in the summer resort business, as was natural under the circumstances. The war was depressing to all. Many who had sons in the service were unable to enjoy vacations in the usual ways, and the financial burden was such as to be felt by all classes and lead to the practice of economy.

Now the boys are home or coming home and there is a general feeling of relief. Life is gradually becoming normal again and when the time comes for summer vacations the rush from the cities to mountain and shore will probably be greater than ever. The people are in need of the rest that comes from change of scene and surroundings and will seek it in the numberless and charming resorts that will be ready to receive them.

No one claims that all the charms of this broad and magnificent country are to be found in New England, but it is a matter of common knowledge that no part of the country offers greater attractions than are to be found here. The climate of New England in the summer and fall months is unsurpassed. The scenery is diversified and delightful. The water is of the best. Most of the resorts are up to date and well managed and in no part of the country or the world can vacationists get greater value for their money.

And without egotism it may be said that no part of New England offers greater advantages and attractions than New Hampshire. Here we have the highest New England mountains, a charming coast, with lakes and streams innumerable offering their seductive charm to seekers of quiet and rest for body and mind. These resorts are all easily accessible and their merits are known throughout the country.

Mr. Grabow is of the opinion that \$75,000,000 will be spent by vacationists in New England this year, and of this the Granite State should receive its full share. The summer resort proprietors should leave nothing undone to extend the fame of the region and attract to our shore, valleys and mountains those who are looking for the best and are not as yet acquainted with the charms of this unsurpassed region.

The wealth brought here by summer visitors is of benefit to the entire state, and the people of the state should work in harmony to spread broadcast a knowledge of the unexcelled attractions of this grand old commonwealth.

The Department of Justice is said to be ready to attempt the enforcement of the prohibitory law, one reason being that the cessation of the war has left a lot of men on its hands with nothing to do, and that this work will make good jobs for them. Let it be hoped that none of them will turn the work into "jobs."

Selling cold tea for booze is not a strictly honorable business, but that is what some shrewd bootleggers have been doing in Claremont, much to the sorrow and chagrin of their patrons. The bootleggers' clientele will have to establish a system of inspection.

The simplified spelling board is again at work. There are many unprofessional reformers at this work all the time, and while some of their achievements are crude and ludicrous, there are others that might well command the attention of the "board."

Good luck to the old "Handlub" that has gone to Bath, Me., after a service of nearly a quarter of a century in this city! If it wins as many prizes there as it did here the veterans who have bought it will be more than satisfied with their bargain.

The settlement of the telephone strike brings a general sense of relief, and there is a strong hope that long before there is further trouble of the kind the telephone business will be out of the hands of the government.

A Portland, Me., clergyman says those who took part in the telephone strike are guilty of treason. That is a pretty strong indictment, but radical views are nothing new in Maine.

This is clean-up week in Portsmouth and everybody should take a hand in the good work. Next to a clean body and a clean home comes a clean municipality.

EDITORIAL COMMENT

Profer Modern Conveniences

 We have learned what it means to do without modern conveniences and we are not anxious for further experiences of a similar character.

 As the first United States minister to free Poland, Hugh Gibson will bring the prestige of his gallant service in Belgium and his experience in the affairs of an enslaved nation to a nation that has cast off its fetters and is full of hope.

Getting On to the Game
 (From the Springfield Republican)
 A woman member of the New York Assembly, Mrs. Ida B. Summish, has voted against the women's social service bills because she intends "to stand with my party (Republican) against the exploitation of women and children for political purposes." She has learned one kind of "practical politics" early.

Fried Wholes
 (From the Waterbury American)
 The well-known doughnut controversy is raging again. Are the big round things, like baseballs, full of bread dough and ate, doughnuts or are they eaters? And if so, what are the little crisp life-saver chips, built around a hole—do they eaters or are they doughnuts? It's a serious matter, because the fellow who has the life-saver habit and gets one of the baseballs is likely to be desolated to the point of homicide. And there is no solution of the controversy, because some places, doughnuts are eaters and other places, eaters are doughnuts. Like mounds, it's a matter of method to pick out what you want and point to it with an uncompromising finger.

The Lack of Moral Character
 (From the New York Herald)
 Suggestion is made in the Voss-Winkel Zeitung, of Berlin, that Germany undertake the work of reconstruction in Northern France, which her enemies have laid waste. The newspaper recounts all the damage that has been done and expresses the desire of Germans to redress it. This apparently is an astonishing admission, but when one reads further the motive becomes evident. The aid is to be rendered by selling to France at a "fair" profit the necessary materials. "Neighboring Germany" stands ready to help.

It is not so much "cheek" or "nerve" as it is obstinacy that causes such astounding proposals to be made by unrepentant wrongdoers. They are clearly enough what happens to be to their own immediate advantage, but overlook how others will regard it and also what will be the effect on their attitude in the future.

Northern Secession
 (From the Springfield Republican)
 Rhode Island is marked by fate to play a historic role in the opposition to Federal prohibition. The State Legislature has already authorized the attorney general to test the constitutionality of the Federal amendment. And how the State Senate has passed a bill making lawful for any civil beer in the day that is come. One can forecast what will happen. Congress will pass a law making the alcoholic percentage of beer much lower, and then under the "concurrent power" clause of the Federal amendment Rhode Island and the United States will clash over the enforcement of the liquor laws in that State. Ultimately the only way out for Rhode Island may be to secede from the Union.

Improve the Merrimack
 (From the Boston Transcript)
 Merrimack improvement has been advanced a stage by the favorable report of the Committee on Harbors and Public Lands of the Massachusetts House of Representatives on the bill to appropriate \$3,638,000 for the improvement of the river between Lowell and the sea, provided Congress appropriates a similar amount. The proposition, if carried out, would provide an eighteen-foot channel from Hant's Falls, Lowell, to the mouth of the river, and would make Lowell an ocean port.

port. Since Congress always stands ready to assist any project of this sort in which the States will meet it half way, it is probable that if the Legislature passes this bill the appropriation will in due time be duplicated by one on the part of Congress, and over \$7,000,000 will be available for the much needed improvement.

Boston, for its part, will welcome the competition of Lowell as an ocean port, quite well convinced that the additional prosperity which the improvement would confer on the entire Merrimack would redound to her permanent benefit. We ought to be whether we are or not, on the threshold of such an improvement of the waterways of New England as will practically double our resources and productions of the time.

Father Knickerbocker Smiles
 (From the New York Commercial)
 When the poet of the breakfast table sang that:
 "There's nothing in this world that keeps its youth,
 So far as I know, but a tree and truth,
 He overlooked Father Knickerbocker, who possesses the secret of perennial youth.

Within a stone's throw of the office of this paper—perhaps a baseball's throw—would be a more popular shrine—there stands on William street a house built of quaint, narrow bricks that were brought from Holland. The building was at one time the "Golden Hill Inn," which as such long since passed into disrepute. A venerable house, full of cracks and crevices, carved mantels, open fireplaces, wide doorways. Painted, patched and made over to conform to modern business ideas, the Holland bricks and Colonial hallmarks betray it for what it is.

It is not a far cry from those imported Holland bricks to the Woolworth building, a few blocks away, yet but a century separates the two types of New York architecture.
 The youthful Father Knickerbocker is precocious. He grows apace, but does not belong in the category of freaks. He is acquisitive. He adds to his bulk what would be called a sizable town every week. One of the charms of the young giant is that, while he purveys every conceivable form of attraction to his children, he like charity, is not puffed up. But he has a right to view his metropolis with a certain degree of complacency.

LOCAL Y. M. C. A. Sends Out Cordial Letter to Men Released From the Service.

The local Y. M. C. A. has sent out the following letter to returned enlisted men:

"At a meeting of the Board of Directors of the Portsmouth Young Men's Christian Association, it was unanimously desired and requested that the general secretary extend every man in the service returning to his home in this district, a sincere welcome. We desire to demonstrate this sincerity by bestowing the full privileges of the Association for three months.

"In accepting this invitation and these privileges, will you at once please fill out this application and return the same to the General Secretary, L. C. Schmalzer. These privileges are also extended to all men discharged from the service coming to our city seeking employment."

"The motive of this letter is not to make the local association conspicuous but to bring to you, with all the dignity and sincerity possible, the appreciation and the spirit of the Community in which the Association is working, and that is, to avail itself and extend to men a service that is due them.

"We are prepared to give you any information desired concerning the continuing of your Government Insurance or obtaining the Federal and State bonus. We are not only willing to give you this information, but we are willing to aid you in securing the same.

"The Association is co-operating with the various organizations which are interested in your welfare. We are not only willing to advise, but to give any support (not only because you have rendered service to the government, but because you have the stuff in you to be of service to your community), and we are willing, if you have not already had the start, to help you go over the top.

"Considering it a pleasure to meet you at any time, enjoying the privileges and participating in the activities of the Association, we remain,
 "Very sincerely,
 "M. G. DAILY,
 "Reconstruction Secretary."

This letter certainly should be appreciated by all who receive it. The local Y. M. C. A. from the very beginning of the war has had the doors thrown open to the enlisted men and many a boy in the service and far from home has felt it was the next place to come and been there constantly in his leisure hours.

CARING FOR CHILDREN OF FRANCE IS SACRED TRUST

Miss Laura A. Smith, a member of the A. C. D. P., working in France writes:
 "I saw the children at Boulogne-Thierry in holiday time. I saw the schoolrooms where French teachers teach all the branches primary and grammar grades. I saw the cunning little grey house in the woods where the older girls learn to cook scientifically and by hygienic methods. I saw the old, old church where the children are taught the catechism in the faith of their fathers.

"After all what are these externals? It is the spirit of the place which registers its mark on works like our Children's Colony. I feel from the bottom of my heart that the American Committee for Devastated France holds these children of the soldiers of France as a sacred charge. It is placing the children in clean, wholesome, cheerful, sanitary surroundings. It is building strong, healthy bodies. It is supplying education, secular and religious. It is inculcating principles of national patriotism and of good citizenship. It is endeavoring to keep the Children's Colony essentially French, supplying French teachers and French domestics.

"When the fathers are demobilized and the real home is once more established I know the Committee will hand over its wards fitted to play their part in the future of France.

"The Portsmouth Branch of the American Committee for Devastated France, Mrs. Austin H. McCormick, chairman, has recently received a gift of one hundred and fifty children's garments. Will not the women of Portsmouth make up these garments so they may be sent promptly to France?

Miss Elizabeth Perkins, vice president and Chairman of Publicity of the A. C. D. P., has kindly consented to speak in Portsmouth in early May.

VICTORY LOAN CAMPAIGN STARTED

Meeting With Interesting Speakers at the Rockingham Hotel--To Rush Work to Complete Quota

The Victory Liberty Loan drive of this city which has been going on since the opening of the campaign was given a boost on Tuesday evening, when a meeting of the Executive Committee of the Liberty Loan was held at the hotel Rockingham. Support was secured in the Colonial dining room and at the conclusion Chairman Fred M. Rice of the Liberty Loan outlined the work that would be carried on for the campaign.

The first speaker was A. C. Waters of Boston, who is the New Hampshire representative for the Liberty Loan. He outlined what it was hoped to do in the New England states and pointed out some of the advantages of the great loan, from an investment standpoint, maintaining that it was a proposition that nobody could afford to pass up, even if they did not care to take into consideration the patriotic viewpoint. He was, however, confident that New Hampshire, which for the first time was the last in the list would take its place up with the leaders and would early announce that its quota has been subscribed.

General Secretary Bailey of the Y. M. C. A. was the next speaker and he took the patriotic side of the argument and outlined why the people should do their share in this great and last drive.

Harry E. Baynton of the Portsmouth Savings Bank, spoke briefly from the bankers viewpoint, calling attention to the value of the loan as an investment and spoke of the particular features of this loan, the exemption from taxes and the right to convert into non-taxable bonds.

The next speaker was Captain W. A. Hopkins of the U. S. S. Kentucky which is here in the interest of the loan. He was on the transport M. Vernon and has been across several times with troops. He is a brilliant speaker, with a fine personality who holds the interest of his people every minute. His talk was one of the finest heard here in all of the drive and his closing was a gem.

Mr. Hector Fisher, Admiral Cowie's civilian aide, who has charge of the

civilian end of the trip of the U. S. S. Kentucky, spoke briefly of the work of the navy and what was being done by the navy to stimulate interest in this the last of the big loans. He announced that the battleship Kentucky was in the lower harbor and would come up to the navy yard this morning, and be open to the public the entire day, and that the navy was carrying the passengers back and forth. He also outlined the plans for the parade of the crew of the Kentucky which will take place at 4.30 this afternoon. Mr. Fisher said that the navy was out to beat its record of the fourth loan and the slogan "match the Navy" was already started for if the rest of the country would show the spirit of the men at sea, the loan would be greatly oversubscribed.

Following this the plans for the work of the captains, was outlined by Frank W. Randall who is in charge of this work and they will begin their work of soliciting the business district this forenoon.

Portsmouth has had a wonderful record for all of the other loans and this will be no exception.

Contributor Robert Ferrell, U. S. N., who has charge of the loan at the navy yard, was present, also representatives of the ship yards and the other industries.

NAVY YARD NOTES

To Launch on April 30

The superbly designed Tennessee, the first of the 10 battleships authorized in the three-year building program of 1914, will be launched at the New York navy yard on April 30.

Some Laborers Called

Two laborers were required by the Industrial Department today.

Doing Some Kicking

Much complaint is heard from the chief petty officers and the plan to discontinue their subsistence allowance of \$2 per day. The same will not be effective here until the navy department can find quarters for them on the U. S. S. Southern.

Died Suddenly

Captain Charles N. Atwater, since April 2, 1914, in command of the Nantuxet, the national training ship of Massachusetts, died suddenly Monday afternoon aboard the ship at the Charlestown navy yard from heart disease. He was born in New York and entered the naval service in September 1878. He had been in the service for several years. His last active duty was in the intelligence department of the Bureau of Navigation.

Injured Throwing Ball

Joseph Boring, a machinist in the Industrial Department, was sent to the yard hospital at noon today for an X-ray and treatment of his right shoulder.

which it is feared is displaced as the result of baseball practice.

Yard Closes Thursday

Tomorrow, East Day in New Hampshire, the yard will be closed to all work except emergency cases.

Only Scrap Metal

A sale of scrap metal and piping will be held at public auction on May 3. A dozen or more lots have been advertised. Nothing else is on the schedule for this sale.

A Little More For Boston

Major Peter of Boston yesterday received word from Asst. Sec. of the Navy P. D. Roosevelt that, in accordance with the Navy's request, repair work found necessary on the transport Patricia and Pretoria will be performed at the Charlestown navy yard. The plan originally was to have the work done elsewhere.

BOLSHEVIK HOLDS UP U. S. NAVY PLANS

(City Associated Press) London, April 23—German submarines in the shipping lanes at Danzig, where American food ships are being overhauled, are becoming so infested with Bolsheviks that the American navy probably will abandon any attempt to make repairs there.

PERSONALS

E. A. Holden has returned from Chicago.

Rev. and Mrs. Charles L. V. Hebrer are in Boston today.

Miss Natalie Clark is on a pleasure trip to Washington, D. C.

Mrs. John W. Emery has returned from a three days' visit in Boston.

Mrs. Fred W. Wilmet has returned after spending the winter in Florida.

SCHOOL CHILDREN PLAY GROUND GAMES

The children of the fifth and sixth grades of the Farragut, Lafayette and Haven schools will hold their play ground meet at the South Play grounds at three o'clock this afternoon. There will be games that are played by the pupils and contests in the various sports. The parents and the general public are invited to attend and witness the work of the children. The games will be over in plenty of time for the Victory Loan parade which does not take place until 4:30.

RESPONSIBILITIES OF PEACE

Dr. M. K. McKay, Professor of Economics, at New Hampshire College, was the speaker before the members of the Carpenters' Local, No. 921, Tuesday night. His announced subject was "The League of Nations," but he seemed more concerned about the responsibilities of peace and the attitude of organized labor thereon. He incidentally mentioned the proposed league and advocated its ratification by the Senate, and urged his auditors to endorse the League and to memorialize the Senate in its behalf.

After the speaker had concluded his remarks promiscuous discussion followed and the Secretary of the Central

Labor Union announced that on account of the Metal Trades Council's Benefit Dances for the Telephone Operators there would be no meeting of the C. L. U. next Thursday night. The hall will be used for overflow purposes and for a reception room for out of town guests. It is expected that a number of telephone operators from Dyer, Rochester and Somersworth will be present.

FAST DAY SHOOT AT TRAPS

There will be a practice shoot at the traps of the Portsmouth Country Club on Fast Day afternoon. It was at first hoped to hold a big shoot on that date, but as a holiday but as previous arrangements had been made by which a team will come here Saturday from the Portland Country Club, and it is hoped a team from the Montclair of Mass. the shoot on Saturday will be held, as originally scheduled. It is also hoped that a team may be here from Manchester and that some of the other gunners from this section of the state will be present.

As soon as possible a regular program with weekly and monthly prizes will be arranged for the Country Club, and also a team match will be arranged with the Inverhill Gun Club.

LET US ALL CELEBRATE

Phone or send word to the Portsmouth Herald when your soldier or sailor boy arrives home as news of our boys who have been serving under the Stars and Stripes is read with interest by all.

TO ATTEND CONSISTORY AT NASHUA

There will be a good number of masons from this city who will go to Nashua on Fast Day for the consistory. The thirty-second degree will be worked on that day and masons will be present from all parts of the state. Some of the local masons will go over this afternoon so as to be present for the working of the 18th degree in the evening.

No special train will be run this year the Railroad Administration cancelling the train, owing to the fact that there will be such a movement of troops from Camp Devens to Boston on that date that every bit of additional rolling stock will be necessary.

CONTRACT AWARDED

At a meeting of the Board of Public Works on Tuesday evening Sidney Truman was the lowest bidder on the addition to the pumping station at the Sherburne spring and he was awarded the contract.

As soon as completed a Laidlaw-Dunn-Gordon fly wheel pump with a 2,000,000 gallons a day capacity will be installed. The pump has been purchased and will be shipped as soon as the room is ready. It is proposed to make the elevation of the pump house 8 feet below the present pump.

The Board are to recommend to the Council that an auto street flusher be purchased for watering the pavement instead of the water carts as used at present.

Peptiron happily meets the requirements of those worn out by worry and excitement over the war, and the prostration following the grip, influenza, etc. It combines the great oxidizers and vitalizers of the blood, iron and manganese, with nux, peptin and other nerve tonic and digestives. Peptiron is in the form of chocolate-coated pills, pleasant to take, and promptly effective.

PROCLAMATION BY REAR ADMIRAL COWIE.

The U. S. S. Kentucky has steamed into your harbor to remind you and the Nation that in the Victory Loan, the last great financial effort of our Victorious War, the Navy is taking a leading part.

If the entire country is animated by the same spirit that is manifested by our sailors, the Victory Liberty Loan is going to be historic in its huge success.

Watch the progress of the Navy's Victory Ship as she steams, with all the pressure of patriotism behind her, toward the Harbor of Victory. Every Liberty Note you subscribe for adds her to our the intervening miles. Bring her in triumphantly.

Again the Navy challenges the Nation. From quarterdeck to fore'side Navy men are showing themselves 100 per cent. efficient.

As Navy Victory Liberty Loan Officer I am proud of the efforts Navy men are making. They are covering the Service and the Nation with honor in peace as they did in war.

By the U. S. S. Kentucky comes this message: Let the patriots on shore match once more the efforts of the patriots at sea.

Subscribe and bring the Victory Ship home in a burst of glory!

T. J. COWIE.

Navy Victory Liberty Loan Officer.

FIND NO BILL IN DEAN CASE

Kenne, April 23.—The grand jury of Cheshire county Tuesday found no bill in the investigation of the murder of William J. Dean, which occurred at East Jaffrey on Aug. 13. The jury started its session on April 9, and has just completed a record session in length of any that has been held in this city. Only 14 indictments were returned.

The grand jurors made this statement: "The grand jurors of the state of New Hampshire upon oath present upon a full consideration of all evidence presented before them that William J. Dean of East Jaffrey, in said town of Cheshire county, came to his death about midnight of Aug. 13, 1918 at hands of some person or persons to said grand jury unknown."

Considerable interest was attached to the Dean case, for on the morning Dean was murdered he had reported to federal authorities that he had seen lights flashed from Mount Monadnock, and which he thought were German signals. Dean had gone to his barn to milk and his body was found at the bottom of a cistern, several hundred feet from the barn. The body was tied up in blankets and bags, and stones were used as weights to keep the body under water. It was believed he was clubbed to death.

No arrests have ever been made.

WHOLESALE ROBBERY OF BLANKETS

The wholesale robbery of the equipment of the big dormitories at Atlantic City, has been described by Major Woodhull who is in charge of that end of the work and the Quinn agency of this city. It was discovered that blankets and other equipment were missing and Mr. Quinn was called in on the case and as a result of his investigation 300 blankets and other goods has been recovered. One of the workmen was arrested and arraigned in court on Tuesday, and at the request of Mr. Quinn the case was continued until Saturday.

COUNTRY CLUB DANCING ASSEMBLY

The Portsmouth Country Club will hold one of their club dancing assemblies on Wednesday evening April 30 at the Annex, Freeman's hall and it will probably be the last in town, as the assemblies during the summer are held at the club. The Club has held a series of assemblies during the winter months, and this year gave up the idea of holding an Easter ball. The assembly like all of the others will be for the club members and their guests.

ALASKAN ARMY MEN ARE HEROES

Valdez, Alaska, April 21.—Up among the peaks and fierce gales, in some of the most lonely spots in the world in winter time, where the mercury sometimes is from 50 to 55 degrees below zero, the men of the United States Army keep their faithful vigil. In lonely huts on the top of solitary mountains, their cabins buried in snow, these men in black watch in the white silence over the slender wires of communication reaching from Valdez to the interior, and thence to the farthest cantons of the territory, ending above Nome in the great white wastes of the sub-Arctic. From Maine, New York, Texas, Missouri, Nebraska and other states, recruits come to the service. There has not been the first instance recorded of a man failing to perform the task allotted to him.

Seventeen stations are maintained by the corps out of Valdez, each completely equipped. The Pacific-Alaska cable after leaving Seattle first reaches the coast at Valdez. Here messages are transferred from the cable and sent out over the land lines.

To reach his station, or post of duty, many of the Signal Corps men have to walk hundreds of miles. Then when the winter blasts hurl out over the white wastes, begins the Signal Corps man's work. Copper wires that link the great territory together and carry the news of the world, pass from Valdez through deep forests, tundra and meadows, over lofty hills and through beautiful prairies to Fairbanks, down the Tanana river to Fort Gibbon, down the Yukon to St. Michael and thence to Nome.

Daily tasks must be broken to other shattering lines, repaired, lines removed from the vicinity of the wires. The Signal Corps man must risk his life time and again for the careless or unfortunate travelers. Some of his deeds have come to light. Among them was a rescue of 1903 when the delta district between Valdez and Fairbanks was visited by one of the worst blizzards in the history of the country. For seventeen days the mercury stood at 41 below, and gates hauled continuously the line snow in blinding masses through the air. One could scarcely face the elements. A party of prospectors and miners on its way from Valdez to Fairbanks was caught in the storm. Unable to reach a roadhouse, the travelers sought shelter in the lee of some timber. On the morning of the second day one man succeeded in reaching the cabin of a Signal Corps man. With the soldier he returned to the stranded party. Several men were frozen to death. Seven trips to and from his station the soldier made, rescuing all the survivors, including two women. Later several of the men rescued died of exposure, and when the summer sun pierced the drifts of the trail, thirteen bodies were found.

PORTSMOUTH THEATRE

The Naval Prisoners' Easter Show, which is to be given at the Portsmouth Theatre on Friday and Saturday evenings and Saturday Matinee this week, was produced at the Naval Prison recently to an audience of prisoners and about forty visitors. The program was as follows: Overture, "Foot and Peasant" (Scepe); an original dance-pantomime, "In Old Madrid"; vaudeville stunts, including the Jazz Band; music by the orchestra; three comic scenes from Shakespeare's "Midsummer Night's Dream"; concluding with a wrestling match by two athletes and with three dances, polka, waltz and galop, by thirty dancers.

The entertainment was pronounced "the best ever" by all who witnessed it. The vaudeville was extremely amusing. Among the performers were some of the most popular of those who appeared in the January show: Milla and Hall, the singers; and Wright, the wonderful dancer who, as one of the reviewers observed, has the best "cut" feet ever seen on the stage. The Spanish pantomime proved to be wonderfully fascinating. It is entirely original and this is its first production on any stage. It was built around the Spanish dance, "The Cachucha," which made such a hit in the January Show, and the young "mily" whose dancing created a genuine sensation. We have here a love story set to fascinating music; the young Spanish lady scorned by her two admirers, a quarrel, a duel, interrupted by the good priest who suggests that instead of fighting the two rivals dance for the lady. A trial of skill in the Cachucha follows, after which all hands celebrate the affair by a dashing galop. The characters of the girl, the two men, the monk and the ten dancers were all well taken and Portsmouth will certainly go wild over the Spanish beauties.

The acting in the scenes from the "Midsummer Night's Dream" was worthy of the best professionals and the audience was kept in such roars of laughter by the absurd antics of the actors that their words were completely drowned for a considerable period of time. Nothing funnier was ever seen on the stage. The final dances were brilliant and beautiful—the Spanish ladies being transformed into black slaves whose intricate steps and perfect training brought forth round after round of applause.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, holding one small strand at a time; by repeating the application of two, your hair becomes beautifully dark, thick, and glossy and you look years younger.

REPORT OF EASTER SERVICE WAS INCORRECT

In the mention made of the Easter services at St. Paul's church, Friday in the Herald of Tuesday, the same was in part incorrect and the excellent solo work of Mr. and Mrs. Leo Flynn and Mrs. Gould were unintentionally omitted from the mistaken portion of the service though no fault of this paper. The above named people are valuable members of that church musical organization and The Herald is pleased to make the necessary correction. The directorship should have been credited to Austin Simpson who has been in charge of the choir since it was reorganized and who has succeeded in bringing it up to its present efficient standing.

Let the Herald know when your boy is released from service and arrives home.

GERMAN U-BOATS GUARDED WITH GREAT CARE

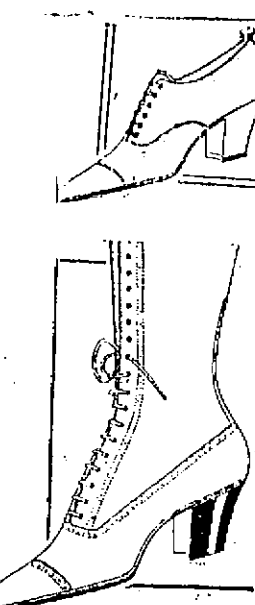

New York, April 21.—Despite the fact that five German U-boats were sent to this country to bomb the Victory loan, it was learned when the U-111 tied up in the Navy Yard in Brooklyn today that some one in authority had decided not to have anything published about the craft. Newspapers were not permitted to enter the Navy Yard and there was a guard about the U-boat. Approaches to the commandant's office were in vain. Rear Admiral Glennon is said to have declared that the order came from the Navy Department and that he could do nothing. Victory loan officials were dumfounded by the ruling and telephoned to Washington to have it rescinded. Meanwhile the four U-boats and 31 enlisted men who brought the U-111 in 12 days, are wondering why the submarine here from Plymouth, their arrival has received so little notice.

The four other U-boats are being escorted by the U. S. S. Thresher, and are expected to arrive soon. They put in at the Azores in bad weather. One of them, the U-97, is from the Azores, second in command. They left Thresher, Bang, March 31, seven days ahead of the U-111, but their stop at the Azores lengthened their trip about 50 miles. The commander of U-97 is Lieut. Commander H. Gibson. The other three boats are U-83, Lieut. Commander J. L. Nelson; U-148, Lieut. Commander H. G. Smith, and the U-117.

One, probably the U-111, will be exhibited here, then go up the Hudson and return and finally proceed through Long Island Sound, with stops at Connecticut ports. Another will go to Portland, Boston, New Bedford, Newport and Providence. A third will visit Philadelphia, Wilmington, Norfolk, Baltimore, Annapolis, Washington, Jacksonville, Key West, Tampa, Pensacola, Mobile, up the Mississippi to St. Louis. A fourth will go to Galveston, through the Panama Canal and up to the Pacific Coast to San Pedro, San Francisco and Puget Sound. The fifth goes to Halifax, up the St. Lawrence, and then to various cities on the Great Lakes.

Five hundred women, most of them married, and children, stormed the rooms of the United States Children at Wilkes-Barre, Penn., when it was announced that a baby orphan could be had for adoption.

The fire started in the kitchen from some unknown cause. A goodly part of the furniture was removed without damage.

CALLED BY DEATH OF FATHER

Miss Tuttle, Supt. of the Children's Home, was called to Newbury, N. H., last week by the illness and death of her father. Mr. Tuttle had been in failing health for two or three years but during the past winter had failed more rapidly. He was confined to his bed less than two weeks and even so was able to sit up some every day. He was sitting in his chair when the end came and was conscious to the last. Two sons were with him at the time. Valvular heart trouble was the cause of his death.

Miss Moore, Asst. Supt., had charge of the Home during Miss Tuttle's absence.

Surely You Don't Believe

THAT our individual war obligations have been met; that we can settle back into our old accustomed grooves and forget the war?

If we all did that there would be greater tragedy in the world than has yet been dreamed of. Surely this is clear to you.

Equally clear is the fact that our most pressing present obligation, individually as well as collectively, is to subscribe for the "VICTORY" Liberty Loan promptly.

The Piece That Receives the Acid Test.

Usually a phonograph, a bookcase, a china cabinet and many other pieces of furniture are backed up to the wall. Often the sofa is, not all of it shows. Being against the wall, it is not especially prominent in the room.

But the library table is almost always in the middle of the room, the center of attention for all eyes. It must therefore be submitted to a much more critical gaze than most other furniture. It must look well on all sides, and from all angles. The design must be unusually good, so that people will not tire of it when viewing it so continuously. "Imperial" tables make good on all these points. We have lots of library tables, davenport tables, and the dearest little odd tables of all descriptions. Won't you come in, and see the new things?

Margeson Brothers—Tel. 570.
